

✧ SUMMARY

Creative “everything web” engineer for jaw-dropping visual experiences. Whether it’s stunning 3D worlds, research-backed UX, or the pure engineering grunt that powers it all.

Hungry for experimentation & perfection?
 Technical prowess overwhelming the floors?
 In need of a goth-dressing engineer?

 HIRE ME

 OPEN PORTFOLIO

🌟 WORK

BIKE BEAR | 1Y8M | APR '24–NOV '25

Web Developer. Tech Team.

1. Created award-winning full-stack websites for large household names—**AirAsia**, **Sime** (fka. Sime Darby), **EcoWorld**, **Sunway**, etc.
2. Lead the internal technical modernisation towards Docker + React + Headless-CMS, which lead to **pitch-winning interactive designs**, **reduced client server costs**, & **enterprise client adoption**.
3. Created the team’s new standard library & visual+file-based editor paradigm for WordPress, which reduced code-fragmentation to boost **agentic AI-driven task productivity**, & enabled Git for WordPress as an enterprise requirement.
